INTRODUCTORY.

With the advent of the New Year, we are pleased to present herewith the new CAMBRIDGE CITY DIRECTORY for 1893, being No. 42 of the series. We have endeavored to compile a concise and reliable Directory, and therefore feel assured that the improvement inaugurated last year, viz., dispensing with the needless repetition of the surname—simply printing it once at the head of each list—will continue to receive the same general favor which it is now accorded. It was our intention to issue the work about the first of January, but through unforeseen circumstances the date of issue has been retarded until now, though we are enabled to publish a list of the officers of the City Government, which we should otherwise have been obliged to omit. We shall constantly strive, regardless of trouble or expense, to maintain a high standard of excellence in the publication of the CAMBRIDGE CITY DIRECTORY, as befitting the prominence of the University City.

Our thanks are extended to the advertisers, and to all others who have rendered assistance.

We desire to call special attention to the material increase in the population and industries of Cambridge, as evidenced by the following figures, which will undoubtedly cause general satisfaction, as it is the largest in the history of the Directory, that it has ever been our pleasure to record, and we flatter ourselves that it bears satisfactory testimony to the thoroughness of our efforts. Summary :—

Names in 1893,	34,400
Names in 1892,	31,694
Increase,	2,706

Respectfully,

THE GUILD PIANO,

Manufactured by the

CONSOLIDATED ✵ MANUFACTURING ✵ COMPANY,

NO. 101 BRISTOL ST., BOSTON, MASS., U. S. A.

Dear Sir:—Having completed arrangements for the entire control and manufacture of the CELEBRATED GUILD PIANO, we desire to call your special attention to the patented improvements contained in these Piano Fortes which have made such revolution in the Upright Pianos.

These improvements are vital, and in the very heart of the piano, and secure to the Upright the most perfect construction ever known in the art of Piano making.

These Improvements are no longer an experiment, for nearly one thousand Pianos have been made and sold during the past few years, with these improvements in, giving the greatest satisfaction and proving in the fullest sense that all we claim for them is strictly true.

We have abundant proof that they will stand in Perfect Tune many times longer than any other Upright Piano made at the present time, giving to the purchaser a pleasure heretofore unknown aside from the saving of a large expense for tuning.

OUR NEW AMERICAN PIANO ACTION has been heartily endorsed by hundreds who have seen it, and brings the Upright Piano to a state of perfection hitherto unknown. These Actions will be used in all our Pianos.

The Guild Piano was established in 1861 by Geo. M. Guild, and upwards of 26,000 have been made and sold, giving entire satisfaction, and for which thousands of testimonials have been received, and EIGHTY-FIVE FIRST PREMIUMS, including GOLD and SILVER MEDALS have been awarded, but our New Patented Improvements brings to the Upright Pianos the purest and sweetest tone, great durability, and the most perfect construction ever known in Piano making, making our Pianos the most desirable for the prospective purchaser to buy.

PACH'S STUDIO.

The talent for seizing at once upon the best points of a sitter is essential to the success of a photographer no less than to that of a portrait-painter, and the lack of it accounts for the failures of pictures, which, though they may have all mechanical advantages, want taste of arrangement.

——THE MANAGER OF——

PACH'S PHOTOGRAPH STUDIO,

IN CAMBRIDGE,

MR. H. WILLIAM TUPPER, has had an experience in the practice of his art such as few have been privileged to obtain. For a period of sixteen years he was brought in frequent contact with HUNT, FULLER, PORTER, ROUSE, MUNZIG, and other BOSTON ARTISTS, and, having a natural taste for art, became thoroughly imbued with the ideas of these painters. Their influence has naturally done much for the excellence of his work, especially in regard to the lighting of the picture and the posing of subjects, so as to give that view which combines the best aspect of the face with its most characteristic expression. — *Boston Daily Advertiser.*

Instructions to Key Holders.

Alarms to be given from the box nearest the location of the fire.

Do not give an alarm for a fire seen at a distance, unless assistance is called for.

To give an alarm, open the door, pull the hook to the button of the slot once, and let go. Each box contains a small bell, which, if heard before you pull, indicates that an alarm has been previously given, and by listening at the box, you will learn the number of the box, from which the alarm was given, but in no case will you pull the box while the alarm is striking. After giving the alarm, remain at the box, so as to direct the firemen to the fire. Be sure that you lock the box before leaving it.

Citizens are requested to inform themselves where keys to the signal boxes are kept, signs suitably scribed being placed over each box, giving the requisite information.

Instructions to Firemen.

First alarm will be given by striking *three* or more rounds.

Second alarm will be given by repeating the first.

General alarm will be given by striking *three blows* on the gongs and bells.

In cases where hook and ladder companies only are wanted, the call will be given by striking *five blows*.

Companies not required to respond to first or second alarms will be notified of the extinguishment of the fire by *two blows* on the gongs, that their services will not be needed and that orders have been given to "make up." Should an alarm be given from any box while a portion of the department is engaged at a fire, the apparatus not in service will respond.
